

Peter Kapelyan

Creative Engineer / Motion / UX Designer

Portfolio: myuxcv.com | E-mail: myuxcv@gmail.com | LinkedIn: [link](#) | Jersey City, NJ

Highly creative and strategic problem solver delivering impact to prestigious clients. An engaged team player with diverse technical skills, I'm motivated to design innovative user experiences.

Certifications: Google UX Design Professional • Scrum Master • Certified Python Programmer

UX case studies and Figma prototypes: [snax app](#) • [chefkids app](#) • [myuxcv responsive website](#)

Professional Experience:

Independent Contractor: UX, Interactive, Product Design & Development (Current)

- Developed products including 2D & 3D digital work such as data visualizations, simulations, websites, sales tools, games, videos, presentations, animations, high-fidelity functional prototypes for a wide range of audiences & clients such as **Apple, J.P.Morgan, Wilson Sports, and scifi.com (SYFY)**

Fusebox, NYC: Senior UX & Interactive Developer (2/2008 - 9/2014)

- Lead Developer on dynamic, data driven user experiences for interactive products such as:
 - 200+ interactive Javascript banners, graphs & calculators for **GE Capital Bank** and **Discover Bank**
 - Custom dynamic interactive 3D globe info applications for **J.P.Morgan**
 - Versatile & dynamic interactive sales tools & pitch decks for **Game Show Network**
- Created advanced functional prototypes & POCs using Javascript, HTML5, PHP & MySQL for Android, Apple products & multiple browsers which led to increased product offerings, a stream of new clients & multitudes of opportunities for sales teams
- Developed & delivered a wide array of multimedia projects in a think tank agency environment for clients with strict requirements & tight deadlines such as **ESPN, CNN, MTV, BET, BTIG, and USAA**

iframe Corp, NYC: Creative Engineer & Product Developer (5/2001 - 8/2003)

- Worked directly with clients to develop brands, web presence, expand digital services & software
- Developed product prototypes, websites & interactive applications such as internet music/radio streaming solutions for clients such as **Sony, Howard Stern** and **Macromedia**
